GÖKKUŞAĞI

KOLEJİ

1997

WELCOME TO OUR SCHOOL

We would like to say hello as a Gökkuşığı College. We hope that you will be happy and reach your goals. In this book, we offer you some information about how to accomodate our culture and our school easily. We wish you joy and happiness.

Family of Gökkuşığı

OUR JOURNEY

21 years ago, which means in 1997, Gökkuşığı College has begun their journey. After all these years, we have become a school which improves itself and has universal perspective. Our journey which has begun in Bahçelievler, continues in Bahçeşehir, Beylikdüzü and Ümraniye. We can say with proud that we are a world school appyling IB and Primary Years Programme. One of the important subject is Gelişim University that is our sister school. We produce original projects about education and training with university. Our colleges continue to educate with an understanding that each student should have their own values and also aware about other's values with respect. We aim to raise individuals who is educated with national and international programmes and, who can go beyond the limits with their language skills. Lets we look closer to our programmes, members and includings our home.

WHO WE ARE?

First of all we want to point that we are assertive for each step of educaiton; kindergarden, primary school, middle school and high school. We aim improvement of individuals who can ask questions, make researches, take the risk and be open minded, social, aware about the world. Therefore, our school participates the national and international contests with students. In 'TUBITAK National and International Math Olympiads', 'National and International Web Design-Project Olympiad', social responsibility project, international english exams, our students take rewards and indicate our school's success. Furthermore, we demonstrate our name in national and international platforms with 'Qualified Team of the Year' reward from MEB. We take firm steps forward with a vision of being a world school and a team that loves their jobs.

EDUCATIONAL PROGRAMMES

Cambridge Assessment International Education

Gökkuşuğu College has Cambridge IGCSE, Cambridge A Levels ve International baccalaureate programmewhich are world's the most prestigious high school diploma programmes. We internalize an educational approach which is supervised and performed measurement and evaluation by Cambridge University Cambridge Assessment International Education departmen and IB.

We are trying to present academic perfection, make real every students' potential, give comprehensive education.

YKS Preperation Workshops

We organise additional study hours two days in weekdays from grade 9 to grade 12. Also we give extra courses if students demand.

For each of our students, from High School 1, we also provide weekly test charts that are tailored to meet the target questions on the topics they are working on.

We also help them identify all the types of questions they may encounter in a related topic examination.

We apply a pilot test each month to ensure that topics covered in high school 1. By this way, we help them to be ready to university exams. The number of test exams for our grade 12 students is going up to 25. We organise university trips and one exam for grade 12 in university. By analyzing the results we determine your needs and make sure about your improvement.

Academic Workshops

Academic workshops aim to improvement of students according to their abilities, skills about culture, art and sport.

We orient you to the academies that are appropriate to your interests and abilities. through the results obtained from the GPAT (Gokkusagi Schools Personality&Aptitude Test) developed and conducted by the guidance unit and student-parent negotiations.

Academies: Dancing– Guitar– Piano– Chess– Ice Skating– Swimming– Sailing– Riding.

High School Foreign Language Studies

Many of our students take an achievement certificate in English as KET, PET and FCE exams conducted by Cambridge University's examination department which is called as Cambridge Assessment English department, all over the World. We measure our level of foreign language with an international standards and we prove that we reach our students at a high level of foreign language.

*The second foreign language is Spanish that is given between 2-4 hours per week.

Stem

STEM refers an intense programme about science, technology, engineering and math. Stem;education in all age groups include formal &informal education.

Individuals who support the STEM system, offer generalized engineering programmes and start the programme from the early ages.

LIFE OF STUDENTS

There are four levels in our school; high school, middle school, elementary school and kindergarden. Our school has been designed systematically for each level. There are 3 entrances in school. High school, middle school, elementary school have their own entrance. Kindergarden students should use the entrance in the information center.

High school part of the school consists of two floor. Cambridge classes are in the first floor, Anatolian high school classes are in second floor. In Cambridge student's floor, there are also principle's room, teacher's room, library, science lab and art room. Counselling service room and English teacher's room are in the second floor.

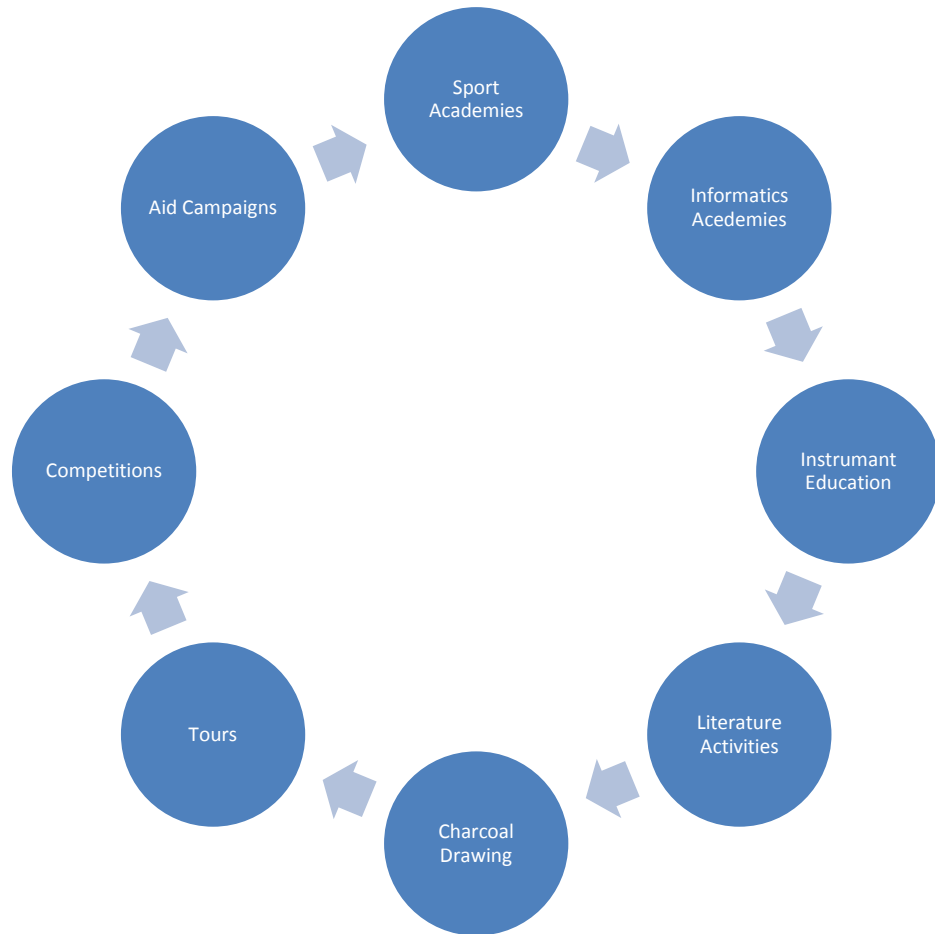

We have 2 sport centers, music room, Stem labs, 3D room, conference room in the school for students' free times. Our biggest sport center is in the garden of the school and the other one is in the basement. Music room, Stem labs are in the first floor and 3D room is in the same floor with elementary school's classes. We also have a conference hall which is in the first floor.

Furthermore, there is a canteen and a dining hall for students. For all of the high school students the lunch break is at 13.05 o'clock. Canteen is across from the conference room.

 - c) Students who fail the courses that can not be considered as successful at the end of the year, will be responsible for that courses.

WHAT IS CLASS COUNSELING AND SCHOOL COUNSELING?

Class counselors organize orientation meetings and group studies for new students like you. We aim to boost your adaptation process with these meetings and studies.

Additionally, our counselors are ready to help for making your adaptation process easy in our culture and school. If students spend time with Turkish students and visit our architecture represents Turkish culture, their adaptation process will be easier for them. Besides that, there are which support students. With these studies, we aim to know your social, emotional and cognitive profile. In this way, we support your social and academic development better.

We organise counseling hours up to your needs and these are mostly about problem solving , creativity, empathy, sharing skills.

On the other hand, teachers, your counselor and professionals guide to your parents and give information with presentations and speeches.

Your School Counselor's Name is Simge

and you can find her/his room in the second floor.

School Surroundings

Our school is located in Bahçeşehir and our students can use minibuses to spend their spare time at Lake Park which is located in twenty minutes distance to here. For shopping, they can also use minibuses to go Akbatı Shopping Center which is at twenty minutes distance.

They can also go Bahçeşehir Culture Center for participating cultural and social activities which is near Lake Park.

The closest bus stop is Hoşdere Kavşağı and at the below, there are lists of busses which pass from that stop:
